OBJECTIVE

Eager developer with skills in Web development seeking a full stack web developer role in a startup company.

SKILLS

React, Node, Express, PostgreSQL, GraphQL, AJAX, JavaScript, HTML5, CSS3

PROJECTS

ChatterBox(<https://github.com/drew23c/ChatterBox>)

TV application for live television messaging on the web.

- Displayed users online using Socket.io.
- Created the notification of joining and leaving chatrooms using Socket.io.
- Limited characters to 150 per message in CSS.

NYC Community Gardens(<https://github.com/drew23c/NYC-Greenthumb>)

A listing of all of the Community Gardens in NYC.

- Built a database using PostgreSQL.
- Stored the community gardens locations using the NYC Greenthumb Community Garden API.
- Designed the front-end using React.

EXPERIENCE

Visiting Nurse Service of New York, New York, NY

July 2004 – December 2018

Technology Coordinator

- Troubleshooted mobile devices such as tablets and smart phones for over 1000 nurses in the field.
- Installed and tested software for potential rollout to the nurses.
- Performed device upgrades every 3 or more years.
- Gained hands-on experience in Active Directory, SCCM, and Mobile Iron.

Pursuit, Long Island City, NY

September 2017 – Present

Advance Fellowship

- Selected for a 36-month program to support career advancement and build the next generation of leaders in technology.

Full Stack Web Development Fellowship

- Selected for Pursuit Core Fellowship, an intensive 10-month, Google-funded software engineering program with a 9% acceptance rate (out of 1500+ applicants). Fellows are prepared with in-demand technical and professional skills and have been hired as developers at leading companies such as Pinterest, JP Morgan, and Spotify.
- Gained hands-on experience with ReactJS, NodeJS, Git/GitHub, Data Structures, Algorithms, APIs, and tech principles and culture via both team/individual projects, code reviews, and pair programming.
